The abstract should be concise and should present the aim of the work, essential results and conclusion. The total length of the abstract should not exceed one page, that is approximately 1800 characters. The abstract may contain plots, formulas and tables, in case if it helps to illustrate the results. The abstract should not contain sections, lists, footnotes or floating images. A reference to the grant can be provided in the last line.

The title should include full names, e-mails and institutional affiliations for all authors. The speaker should be marked using the command \speaker (⋆). The bibliography must contain exactly one item — a reference to the full version of the article, published or accepted for publication in a peer-reviewed journal, or submitted to the peer-reviewed electronic journal "Machine Learning and Data Analysis" through the website of the journal http://jmlda.org. If the full version of the article is published in an electronic journal, the URL for this article must be indicated.
